## EDUCATION

**Queensland University of Technology**

Feb 2023 - Jul 2025

Bachelor of Information Technology

## AWARDS & CERTIFICATIONS

- Certified AWS Developer (2024)

## SKILLS

- **Technical Skills:**
  - **Languages:** TypeScript, JavaScript, Python
  - **Frameworks:** Node.js, Express.js, React, Next.js, WordPress
  - **Cloud & DevOps:**
    - Amazon Web Services (AWS) — Lambda, DynamoDB, S3, API Gateway
    - Docker
    - Continuous Integration/Continuous Deployment (CI/CD)
  - **Databases:** DynamoDB, PostgreSQL, MongoDB
  - **Version Control:** Git/GitHub
  - **Other Tools:** RESTful API development, CRM data modeling

## PROFILE

- Skilled in TypeScript, JavaScript, and React, with experience in both backend and web development
- Experienced in backend development using AWS services (Lambda, DynamoDB, API Gateway, S3) for building scalable serverless applications
- Strong foundation in cloud computing, API development, and database management
- Certified AWS Developer
- Graduated from Queensland University of Technology with a Bachelor degree of IT
- Effective communicator and team collaborator, experienced in working within agile environments
- Passionate about building scalable, high-performance applications and following best development practices
- Eligible to work full-time in Australia

## WORK EXPERIENCE

### Cyberlark Studio

FULL STACK DEVELOPER

*October 2024 - present*

- Contributed to a TypeScript-based CRM platform, modernizing client data management and user workflows
- Integrated AWS services (Lambda, DynamoDB, API Gateway) to build scalable, cost-effective serverless solutions
- Developed Conversation APIs, enabling real-time SMS communication and advanced client management features through Twilio & AWS integrations
- Built Campaign APIs with AWS integration that provided advanced client management features, improving marketing automation capabilities
- Implemented automated CI/CD workflows with GitHub Actions, improving deployment speed and reliability
- Collaborated with cross-functional teams to translate business needs into technical solutions and optimize system performance
- Authored technical documentation and supported knowledge sharing to enhance team efficiency and code quality
- Committed to continuous learning and applying best practices to deliver high-quality software

### Australia Urban Grower

JUNIOR WEB DEVELOPER

*June 2024 - June 2025*

- Developed and maintained AUG's official website using WordPress, enhancing the organization's online presence
- Customized WordPress themes and plugins to meet specific business requirements and improve user experience
- Communicated directly with the client to gather requirements and incorporate feedback into development
- Collaborated in a Lean environment with designers and developers to deliver high-quality solutions on schedule
- Contributed to problem-solving and technical decisions to ensure the website aligned with business objectives
