- 

### **Professional Experience**

## **Cyberlark Studio**

Junior Backend Developer

October 2024 – Present

- Developed and maintained Conversation and Campaign APIs using TypeScript and AWS services.
  - Designed and optimized serverless architectures with AWS Lambda, DynamoDB, and API Gateway.
  - Integrated Twilio APIs for SMS handling in Conversation APIs.
  - Collaborated closely with teams to implement CRM models and optimize workflows.
- 

## **Australia Urban Grower (AUG)**

Junior Web Developer

June 2024 – June 2025

- Developed and maintained AUG's official website using WordPress as part of a graduate project.
  - Customized WordPress themes and plugins to meet client requirements.
  - Optimized website performance for fast load times and SEO best practices.
  - Engaged in frequent communication with clients to gather requirements and feedback.
  - Worked in a Lean environment, coordinating effectively with designers and developers.
-
